

Chemicals

Samples of various chemicals were obtained on the Asterii Cathedral. All require further testing, though some are labeled (so to speak):

[Vigil Device](#) Vials: Chemical vials that can be slotted directly into the hardware of a Vigil Device:

- "Sustenance" (bears chemical similarity to [Asterion Tonic](#) and the fluids of [Cutters](#))
- "Life"
- "Celerity"
- "Vigil" (Lazarus has reported that he intuitively understands this substance to be dangerous.)
- "Torpor" (Storage empty, no samples obtained.)

Laboratory Chemicals: Assessment Required
